

Share ideas with anyone, anywhere—online.

WebEx Meeting Center Highlights

- Take care of business more efficiently by eliminating back-and-forth email.
- Work with teams across the map; all you need is Internet access.
- Maximize your resources by bringing people together without travel time and expense.
- View participants with high-quality video. Keep track of who's speaking with Active Speaker technology, which follows the current speaker—automatically. Switch to Full-Screen video mode for a great virtual video conference experience.

Get more done, faster, and empower your workforce with online collaboration using Cisco WebEx™ Meeting Center. Share documents, presentations, and applications anytime, anywhere. Conduct regular meetings among geographically dispersed staff members. And hold lively creative sessions with customers, colleagues, or internal teams.

Meet online just as if you were face-to-face.

Launch or join a meeting using any web browser. Give invitees the option to connect by phone or integrated audio on their computer, or by mobile phone, regardless of location. Make online meetings even more engaging with high-quality video that automatically switches to the current speaker.

Count on Cisco for secure, scalable WebEx service.

WebEx services are delivered on demand over the global Cisco® Collaboration Cloud. No new software or hardware is required, making these services easy to implement and scale as your needs change. The Cisco Collaboration Cloud offers better than 99.99% reliability, as well as robust security, to meet your strict requirements.

Make online meetings easy and productive with these powerful features.

Document, Application, and Desktop Sharing

Share anything with remote attendees in real time. Pass control to attendees so they can share their desktops, or annotate yours.

Rich Multimedia Experience

Engage your audience by incorporating multimedia in your presentations: PowerPoint, Flash animations, and audio and video.

High-quality Video

See up to six video participants at a time in high-quality, full-screen video mode with Active Speaker switching that focuses on the person talking.

Integrated Audio

Offer a rich meeting experience with Cisco WebEx integrated audio or other third-party audio. Choose toll or toll-free with call-in or call-back. Or give attendees the option to join using integrated computer audio (VoIP).

Active Talker

Identify who's speaking by a flashing icon in the meeting participant panel.

Floating Panels

Deliver full-screen views for attendees while you manage meeting activity behind the scenes.

Meeting Recording, Editing, and Playback

Record meetings and applications for future reference, training, or demos

Desktop Integration Suite

Initiate meetings instantly from Microsoft Office, Microsoft Outlook, Lotus Notes, and a variety of instant messaging solutions.

One-Click Meeting Access

Start a meeting and invite attendees instantly from your desktop, taskbar, or favorite applications.

Easy Meeting Invites

Send invitations and reminders using an automated phone call, text message, email from your local client, or IM.

Enterprise Integration

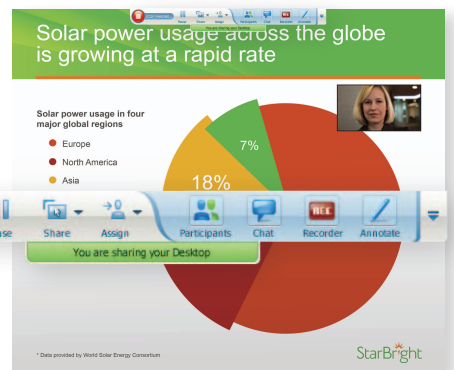

Use a single signon to access WebEx Meeting Center and other enterprise applications. Plus, it integrates seamlessly with Cisco Collaboration products.

Cross-Platform Support

Meet with anyone using WebEx® on all common operating system platforms: Windows, Mac, Linux, and Solaris—or even on a mobile device.

Manage meeting activity without distracting attendees. See the attendee list, chat, manage video, and control audio—behind the scenes in floating panels. Monitor any activity, even when floating panels are minimized.

Give attendees a clear, full-screen view with a discreet toolbar for navigation.

WebEx Meeting Center is updated regularly to meet the latest system compatibility needs. Please visit www.webex.com to see system requirements.

Languages supported: English, Spanish, Brazilian Portuguese, French, Italian, German, Swedish, Japanese, Korean, and Chinese (simplified and traditional)
